Dear Jane,

Re: Refurbishment at Millennium House

I would like to re-iterate how pleased Tameside and Glossop Primary Care Trust were with the work that you carried out for us recently on our new call centre facility based in Millennium House.

We found your staff to work with the utmost professionalism at all times. The site was maintained to an excellent standard throughout the work and we were given a swift and thorough delivery of work based on our planned expectation.

The furniture solutions were excellent, in fact, better than we imagined and together with the colour schemes, has given our call centre environment a truly palatial feel.

The overall performance of the company throughout the project has been excellent and we would most definitely be happy to recommend your company if the opportunity presented itself.

Yours sincerely

Hilary May
